Group forceBy IoannaWhat I really liked about this book is that it's split in about 40 sections where various entrepreneurs write in 4 to 5 pages their experience perception of walking the conscious entrepreneurial path. For every chapter I read I used my ipad to check the web links at the end of each

section. This is a good and new way of reading a book since you can take every section a bit further and get to know better the business and person that's providing you with insights and advice about running a conscious business. What's also interesting is how the term 'conscious' is interpreted by each author. There's a certain group force that goes through this book that's very inspiring. Other facts that I would like to mention about the book: the majority of the writers are women, there is a big influence that comes through from the Law of Attraction, most authors have a consulting, coaching business, the accent of the book is more on the conscious rather than the entrepreneurial side. I would have liked to see more overall examples of conscious entrepreneurship in other fields of action and with a broader kind of spirituality (not just the law of attraction).

Conscious Entrepreneurs, by Christine Kloser, is a MUST to read if you are thinking of beginning your own business, have just started your own business, or have exhausted your business 'soul' after years of trying to keep your business going. MAGIC! I think not! Christine and her guest authors present wonderful and compelling insights with a myriad of business stories and as many 'jump-start' ideas to encourage entrepreneurs how to establish and align their passionate desires/drive for their businesses and how they actually function. This, they say, not only encourages sustainability, but attracts like-minded individuals to you and your services or products. It's not the old-style 'sell the car' type of sales--nor is it for the faint of heart! Things have begun to shift in the marketing arena, and this book is a must for your bookshelf--even if you aren't business minded--this is an inspirational read.
