James T. O'Reilly : Consumer Product Safety Regulation before purchasing it in order to gage whether or not it would be worth my time, and all praised Consumer Product Safety Regulation:

PLI's Consumer Product Safety Regulation gives you comprehensive, compliance-enabling insight into the 2008 Consumer Product Safety Improvement Act, the most dramatic overhaul of consumer product safety legislation since the 1970s. Written by one of the country's foremost experts in the field, Consumer Product Safety Regulation shows you how the 2008 amendments bring substantially lower lead limits for children's products; bans on certain chemical compounds in toys and child care articles; more rigorous testing, certification, and tracking of products; new product warnings in ads and on websites for toys and games; increased CPSC authority to effect and enforce product recalls; stronger whistleblower protections for workers who report suspected illegalities; and much more severe penalties for

violations. Consumer Product Safety Regulation shows the steps that regulated entities should take to comply with the new rules, including how to secure the services of an accredited product testing laboratory, and how to prepare credible certifications of compliance for toys and children's products. Updated periodically, Consumer Product Safety Regulation: Impact of the 2008 Amendments is a must for every executive, manager, and legal adviser involved with consumer products in the U.S. Founded in 1933, Practising Law Institute (Practicing Law Institute,PLI) is the nation's foremost provider of continuing legal education. PLI is a leading publisher of authoritative legal references and other information resources and offers more than 300 live and electronic programs nationally. About the Author James T. O'Reilly is a Professor Law at the University of Cincinnati School of Law.
