richardsonI loved the book, I bought 3 more to pass around to my nieces and nephews. It is motivational, but not gimmicky. I rarely read a book twice beside the Bible, but I will read this one probably once a year for a motivational checkup!!0 of 1 people found the following review helpful. Just what he wantedBy LovetoshopI ordered this book for my son. I had not read it yet, however, my son says it has a lot of good information for people interested in starting their own business. When I read it for myself I will do a follow-up review with all the details.

Creating Success from the Inside Out shares the inspiring and motivational story of Ephren Taylor, one of the world's youngest-ever CEOs of a publicly traded company. A millionaire by the young age of sixteen, Taylor tells you what it takes to succeed in life by following your own path and refusing to be defeated. When you ignore the voices of negativity and follow our own true passions, there are no obstacles you can't overcome.

From the Inside FlapCreating Success from the Inside Out shares the truly inspiring story of Ephren Taylor, one of the world's youngest-ever CEOs of a publicly traded company. At twenty-five, he has been a preacher, entrepreneur, business owner, and chairman and CEO. He launched his first business at twelve and was a millionaire at sixteen. It would be natural to assume that success at such a young age must be due to some special training or understanding. It's not. Taylor's success didn't come from formal education, but from solid values, principles, and the drive and desire to reach his goals. In Creating Success from the Inside Out, Taylor shares these concepts along with the necessary tools and inspiration to help you realize your own dreams. Life offers a million excuses to give up and quit. Plenty of voices tell us we can't do it—that we aren't smart enough, fast enough, rich enough, or good-looking enough. Do you listen? Or do you turn away from those negative voices and follow your own passions and goals? You have the power to overcome them and succeed if you . . . Accept NO excuses and let nothing stand in the way of your dreams Get over your fears and self-doubt and choose success Develop the decisiveness and determination to achieve your goals Just say no to conventional wisdom! It's usually wrong Start a business as a tool to reach your dreams Find motivation in something other than money Achieve true and complete wealth by giving back to your community If Ephren's fascinating and inspiring story teaches us anything, it's that we must ignore the stereotypes and expectations society thrusts upon us. Follow your own path and determine your own definition of success. The only real obstacles are the ones we create. Why not tear yours down? Start today—and create your own success from the inside out.
