**From Corwin : Creating Successful Learning Environments for African American Learners With Exceptionalities** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Creating Successful Learning Environments for African American Learners With Exceptionalities:

In this groundbreaking book, more than 25 leading scholars and practitioners provide concrete solutions for maximizing African American students' achievement.

About the Author Festus E. Obiakor, Ph.D., is the Chief Executive Manager, Sunny Educational Consulting, Shorewood, Wisconsin. He has served as Department Head and Professor, Valdosta State University, Valdosta, Georgia and The City College of New York, New York. A teacher, scholar, leader, and consultant, he has served as Distinguished Visiting Professor at a variety of universities. He is the author of more than 150 publications, including books, articles, and commentaries; and he has presented papers at many national and international conferences. He serves on the editorial boards of reputable nationally and internationally refereed journals, including *Multicultural Learning and Teaching (MLT)* in which he serves as Executive Editor. Dr. Obiakor is a leader who has been involved in many landmark scholarly works in the fields of general and special education, with particular focus on African American and other culturally and linguistically diverse (CLD) learners and he continues to prescribe multidimensional methods of assessment, teaching, and intervention for these individuals. Based on this premise, Dr. Obiakor created the Comprehensive Support Model (CSM), an intervention model that values the collaborative, consultative, and cooperative energies of students, families, teachers/service providers, communities, and government agencies.
