"As a principal focused on student achievement and school climate, I am excited to take this book and begin to use the strategies and discussions to drive our conversations to a deeper and more meaningful level. The combination of the constructs of school culture, professional learning community, and teacher/community leadership provides a compelling and unique exploration of real methods to sustain student achievement and school improvement."--William Richard Hall, Jr., Principal (08/01/2012)"Leaders looking for a fresh and practical approach to change will welcome Kaplan and Owings compelling case about the omnipresent culture of a school and the unexplainable disregard it receives in the literature and in actual school improvement endeavors."--Robin Fogarty, President (08/28/2012)"Ever since Seymour Sarason wrote his seminal book on The Culture of Schools and the Problem of Change we have known that 'culture' is at the heart of all organizational performance. But reformers keep forgetting this key fact. Kaplan and Owings' book changes all that. Here is a book the brings school culture back into the driver's seat from the emphatic title of Re-Boot through all of the chapters the authors show clearly what culture is and how to understand and change it for the better. Now in one place you can find everything you need to know to 're-boot' you own school's culture."--Michael Fullan, Professor Emeritus (08/28/2012)"Efforts to reorganize, restructure, or reform a school is a difficult task at best. Change can only occur in a culture that brings together the salient factors that alter the teaching and learning processes. The authors bring numerous years of experience in educational leadership as they effectively show how principals and teachers can address the single most important component in raising student achievement school culture."--Elliot Y. Merenbloom, Educational Consultant (08/29/2012)"As a principal focused on student achievement and school climate, I am excited to take this book and begin to use the strategies and discussions to drive our conversations to a deeper and more meaningful level.
