"If you want to understand usable knowledge, read *Data-Driven School Improvement*." —Ellen Condliffe Lagemann, Harvard University "It is reassuring to know that at least some of the data being generated in our data-driven age are being used to make wiser decisions. We can all learn from these illustrative accounts." —David C. Berliner, Mary Lou Fulton College of Education, Arizona State University "Replete with examples from real schools and districts, this volume provides a multi-layered portrait of what it takes to establish a culture of data use. Readers will come away with an appreciation of the systemic changes needed to reap the full potential of data-driven decision making." —Barbara Means, Center for Technology in Learning, SRI International
