It hardly explains anything it talks about and when it does it is far more complicated than it needs to be. Lazily written with multiple errors, reading it is an accomplishment in itself. If you like a challenge, and the ability to go from 0 to 100 in anger, this is the book for you.0 of 0 people found the following review helpful. Strong Textbook!By ZstarZGood book for an Econometrics class! I rented it and Rent Service is quite painless to use. Vocabulary used in textbook is high level so not always fully explained. If you are a beginner, I would suggest this book only if you don't mind looking up some terms online. Otherwise, strong learning textbook.0 of 0 people found the following review helpful. Three StarsBy Mel LindsaOkay

The primary objective of the fourth edition of Essentials of Econometrics is to provide a user-friendly introduction to econometric theory and techniques. This text provides a simple and straightforward introduction to econometrics for

the beginner. The
