Development in South Asia (Innovative Strategies ... Training and Higher Education in South Asia):

This publication highlights priorities and strategies in meeting current and emerging needs for skills development in South Asia. The report is in line with the Asian Development Bank's effort to support its developing member countries' priorities toward global competitiveness, increased productivity, and inclusive growth. It also identifies key issues, constraints and areas of improvement in making skills training more responsive to emerging labor market needs in South Asia as an important factor in sustaining high economic growth. The report was completed in 2012 under the Australian AID-supported Phase 1 of Subproject 11 (Innovative Strategies for Accelerated Human Resource Development) of RETA 6337 (Development Partnership Program for South Asia).
