Great read... The trials and tribulations we face chasing a dream that this day is hyper-saturated and a dime-a-dozen. It's a good book with the pro's and con's of the grief of the MBA program (And I come from a military background) This is a big asset on if you want to pull the pin or seek another path.... Great book. Well composed and an easy read even on the bathroom break... I enjoyed it and hope you do the same... In today's flattening global job path and flattening financial composition this is well worth the cost of the book.... Strongly recommended!0 of 0 people found the following review helpful.
