Maurice Schiff, Ccedil;aglar Ouml;zden : International Migration, Remittances, and the Brain Drain (Trade and Development) before purchasing it in order to gage whether or not it would be worth my time, and all praised International Migration, Remittances, and the Brain Drain (Trade and Development):

0 of 0 people found the following review helpful. The definite work in remittancesBy CustomerExcellent compilation, great content - a must have for anyone that needs to understand and excel at this field. Deep insights into the money flows, cause and effect relationships, across all key money corridors. Also some thoughts on "brain drain" effects.Very

comprehensive work - congratulations. 0 of 0 people found the following review helpful. Good Articles but...By John Bufloddon't bother purchasing the book. While the articles are well written out, and often thought provoking, most of them are available for free online.

International migration, the movement of people across international boundaries, has enormous economic, social and cultural implications in both origin and destination countries. Using original research, this title examines the determinants of migration, the impact of remittances and migration on poverty, welfare, and investment decisions, and the consequences of brain drain, brain gain, and brain waste.

"Inevitably, international migration is poised to be one of the biggest challenges to, and also opportunities for, world development in the twenty-first century. This volume greatly enhances our understanding of its causes and consequences and should help us to think of better policies, by both developed and developing countries, to manage this critical phenomenon." -- Ernesto Zedillo
About the Author MAURICE SCHIFF is Lead Economist in the World Bank's International Trade Unit, Development Research Group, USA. Before joining the World Bank, he was Research Director in the Faculty of Economics and Management at the University of Concepcion, Chile. He is currently researching various international economic issues, including directing a research programme on international migration. He co-directed a research programme on regional integration which has generated a large number of published papers, a World Bank Policy research Report entitled Trade Blocs and a book-length volume entitled
