Dan Cryan, Sharron Shatil : Introducing Capitalism: A Graphic Guide (Introducing...) before purchasing it in order to gage whether or not it would be worth my time, and all praised Introducing Capitalism: A Graphic Guide (Introducing...):

They obviously won't make you an expert on anything, but they are nice for giving orientations / outlines0 of 0 people found the following review helpful. Great introductionBy jay70Excellent overview of listed topic, also an easy read.2 of 6 people found the following review helpful. An overview of different economic theories as related to capitalismBy D. ArnettNot a starting point. If want a comic-book starting point, use the classic two book volumes by Yoram Bauman and Grady Klein:

http://www..com/gp/product/0809094819/ref=cm_cr_ryp_prd_ttl_sol_55 and http://www..com/gp/product/0809033615/ref=cm_cr_ryp_prd_ttl_sol_53.) Near the end, the material is treated with increasing brevity and less clarity (or at least the what the implications are of the theory.)

Capitalism now dominates the globe, both in economics and ideology, shapes every aspect of our world and influences everything from laws, wars and government to interpersonal relationships. "Introducing Capitalism" tells the story of its remarkable and often ruthless rise, evolving through strife and struggle as much as innovation and enterprise. Tracing capitalism from its beginning to the present day, Dan Cryan and Sharron Shatil, alongside Piero's brilliant graphics, look at its practical and theoretical impact. They cover the major economic, social and political developments that shaped the world we live in, such as the rise of banking, the founding of America and the Opium Wars. This book explores the leading views for and against, including thinkers like Adam Smith, Karl Marx, Theodor Adorno and Milton Friedman, together with the connections between them and their historical context. Capitalism has influenced everything in the 21st-century world. For anyone who wants to gain a broad understanding of this fascinating subject, this book cuts across narrow academic lines to analyse an all-encompassing feature of modern life.

About the Author Dan Cryan has degrees in Philosophy from UCL and now works as a market analyst in London. Sharron Shatil is a Philosophy lecturer at the Open University in Israel. Piero is an illustrator, artist and graphic designer whose work has twice been included in the Royal College of Art exhibition in London. Previous Introducing titles include Aesthetics, Shakespeare and Nietzsche.
