How to patent.By Beverly DouglassThis book was somewhat helpful. It took us to the next step that we would need to do. This book will give you some direction but you will still have to get a patent lawyer when its all said and done.2 of 2 people found the following review helpful. Patent help for money is pretty much a scam industry so I'd be wary of ...By GreywolfThis guy is spamming a site I moderate by continually joining with different names and linking his web sites. I wouldn't be surprised if positive reviews here are from him using different names. Patent help for money is pretty much a scam industry so I'd be wary of any person or company doing it.

Today, one of the easiest ways to make money is to create and sell original ideas. Every year, more than 100,000 patents are granted in the U.S., creating a billion-dollar industry for those using intellectual property. With this book, would-be inventors can develop their ideas with low risk and a minimum of investment - without quitting their day jobs! Attorney and patent holder Steve Barbarich takes readers on an exciting journey through the patenting process. From concept to marketable product, there are step-by-step instructions that anyone can follow. This book features important information on: Choosing which ideas to pursue Taking your ideas into the marketplace Prototyping and test marketing Filing the proper forms Protecting your ideas And much more!
