John Adair : John Adair's 100 Greatest Ideas for Effective Leadership before purchasing it in order to gage whether or not it would be worth my time, and all praised John Adair's 100 Greatest Ideas for Effective Leadership:

0 of 0 people found the following review helpful. Solid Guidance on Leadership SkillsBy Elijah ChingoshoThis is a delightful little book that provides a quick and useful reference guide on how to improve your leadership skills and capabilities. I have read a lot of books on leadership but reading is not enough. Some fundamentals have to be

constantly reinforced. John Adair presents a well written, easy to read book that is fun to read and yet packed with a lot of commonsense practical ideas that can help anyone improve their leadership skills. The book will reinforce your commitment to fundamental leadership skills. Sometimes you just have to read something one more time to make it stick. I especially appreciate his down-to-earth advice and views on leadership which are drawn from his own wide extensive military, business, and academic backgrounds and experience as well as sharp intellect. John Adair's 100 Greatest Leadership Ideas fits the bill. Definitely worth reading. 1 of 1 people found the following review helpful. Insightful! By Rolf Dobelli John Adair offers a very good little handbook of leadership and management counsel, with some additional advice on setting personal and life goals. He provides little original material and freely gives credit to others for the ideas he borrows. He is clear and straightforward in his presentation, wasting no words. It would be beneficial to keep this book in a desk drawer or on a convenient bookshelf and look into it every day or two, reading a single page or even a single paragraph. We recommend thinking of it as a useful reminder of things you probably already know, but may forget to practice. As Adair advises, one way to manage your time is to use book abstracts whenever possible. We could hardly argue with that.

Successful management and leadership has never been a greater challenge. Time is stretched, your people are highly motivated but can be highly demanding and business is competitive. Whether you are a first-time manager or experienced leader, straightforward, practical advice on best practice can be hard to find. John Adair's 100 Greatest Ideas for Leadership and Management will help you find the answers and inspiration you need. The book provides accessible advice from one of the world's best-known and most sought after authorities on leadership and management - advice you can put into practice immediately.

"...if you want to buy a quick reference guide for improving your own skills and performance then you could do a lot worse than this..." (Edge, October 2002) "...This little book is fun. It is well structured, easy to access and free of the hyperbole of some popularist 'how to' management text..." (Professional Manager, November 2002) "...The clear language and gusty commonsense of this book make it a beacon amid today's tide of gobbledegook..." (Southend Echo, Basildon Echo and Colchester Evening Gazette, 29th 30th March 2005) From the Back Cover Successful management and leadership has never been a greater challenge. Time is stretched, your people are highly motivated but can be highly demanding and business is competitive. Whether you are a first-time manager or experienced leader, straightforward, practical advice on best practice can be hard to find. John Adair's 100 Greatest Ideas for Leadership and Management will help you find the answers and inspiration you need. The book provides accessible advice from one of the world's best-known and most sought after authorities on leadership and management - advice you can put into practice immediately. About the Author John Adair is internationally recognized as a leadership and management guru and has twice been named as one of 40 people who have contributed most to the development of management thought and practice. He is the author of more than 30 books and numerous articles on history, leadership and management development and over two million people world-wide have participated in the Action-Centered Leadership training approach he pioneered. He became the world's first Professor of Leadership Studies, at the University of Surrey, and is currently Visiting Professor at the University of Exeter. John Adair has worked with directors and senior managers as a consultant to a wide range of international organizations, including Shell, Exxon Chemicals, Mercedes-Benz and Unilever. He is currently an international management consultant advising a range of organizations spanning business, government, and the voluntary, education and health sectors.
