Gerry Reddy, Eddie Smyth, Michael Steyn : Land Access and Resettlement before purchasing it in order to gage whether or not it would be worth my time, and all praised Land Access and Resettlement:

A practical road map for corporate leaders, project managers, practitioners, academia, government and civil society for practically planning and implementing successful land access and resettlement, and creating win-win outcomes for companies and communities.

It is a must read for everyone in the impact assessment profession and will be a standard reference on the shelves of resettlement and land access literature. Overall, the book is an intelligent and thoughtful piece of work that will be enjoyed by the general reading public as well. - 'International Association for Impact Assessment Journal' - Seth Appiah-Opoku, University of Alabama

About the Author

Gerry Reddy has extensive experience in land acquisition, resettlement and urban and regional development, having planned, implemented and reviewed a number of challenging projects. He has worked for private consultancies, local and regional government, the United Nations, and international NGOs. Gerry has managed and advised on land access, resettlement and urban development projects in a variety of locations, including Africa, Eastern Europe and Asia. His expertise is in project management, resettlement planning and implementation, land management, community and key stakeholder consultations and negotiations, environmental and social impact assessment, and participatory community planning and development.

Eddie Smyth has over 18 years of experience working within the environment and development sectors in Africa, Europe, South America and Asia-Pacific. Eddie has extensive worldwide experience in land access and resettlement planning and implementation, livelihoods restoration, community development and stakeholder engagement. He has planned, implemented, managed, monitored and reviewed numerous land access and resettlement projects including projects in Burkina Faso, Congo Brazzaville, DRC, Ghana, The Ivory Coast, Nigeria, Turkey, Papua New Guinea, Peru, the Philippines, South Africa and Zambia.

Michael Steyn has over 19 years of experience working with natural resource and infrastructure projects as a consultant and in a variety of senior management and other positions. Mike has extensive worldwide experience dealing with stakeholder engagement; social impact assessment; land access resettlement; indigenous peoples; cultural heritage; and community development. He has planned, implemented, managed, carried out due diligence on, reviewed and monitored numerous land access and resettlement and other projects in over 20 countries in Europe, Africa, Latin America and Asia. He helps clients plan and implement projects, as well as providing due diligence, review and monitoring services. He also helps clients at a corporate strategic level and in the development of business wide social management standards and guidelines.
