I spend a lot of time looking at it as well because nothing makes sense at the micro level. Our water is poisoned with water destroying fracking, even in CA where a drought is endangering our food supply. Our food supply is being controlled by an FDA deputy director who was Monsanto's former policy director, ensuring that whatever biotech creates will be ushered into the food supply on the word of the manufacturer alone. Our staple crops of corn and soy were the first to go. Vaccines may sound great until you meet the

mother of a vaccine injured child, one forced to go to a government court and face enormous opposition while footing all the legal bills and the cost of her son's disability. People who speak out are silenced and ridiculed. Sometimes they die mysteriously. Science is bought and paid for. Studies avoid very obvious questions while aiming to prove a point that makes money for someone. That is not science....but scientist have to eat too. I moved to my current home because it was one of the last places in Louisiana with clean water. It is beautiful with clear streams, abundant foliage and laws that require a permit just to cut a tree. But something called the Halliburton Loop Hole passed by congress to exempt fracking from the clean water act is now ready to attack our aquifer. There is no arguing that fracking poisons water. Our local oncologist went over every chemical (and they won't tell you everything) and told us the effects. The recent EPA study as damning as it was is a joke! The structure of our corporate government is not the pyramid we think but a host of three letter agencies each of which have the same agenda....and it is not to preserve our health and well being....Perhaps the worst part of it is what we do to ourselves...Read the Rolling Stone article about the babies dying in Utah..and what is being done to the woman midwife who pointed it out....It is time we start to love one another and stop chanting the party line....Thank you Jim! 61 of 64 people found the following review helpful. Must Read -- MARRS AT HIS BEST! By LJ To be completely honest, books by Jim MARRS have always been hit or miss for me : some really good...some not that great. Population Control, however, is clearly a 5-star must-read book, MARRS at his very BEST. I would recommend this book to anyone who is concerned about the growing collusion between government and corporate interests. This book covers a lot of territory and MARRS gives plenty of documentation for those who are skeptical or just want to read the evidence for themselves. Although some call him a "conspiracy theorist", MARRS always cites his sources extensively, so you can check out everything he says for yourself. I read Population Control and Battlefield America by John Whitehead back to back. The books are extremely frightening, but the information they provide is something every American needs. These are perilous times for the Republic, but hopefully books like Population Control will help awaken the masses to fight tyranny and the global elite. 18 of 20 people found the following review helpful. Great book, so far By Josef Mitschkel I am half way through it, but I always suspected that things are not what the media portrays. As a truth seeker, I will never count on the popular media nor the government to tell me the way things really are. Great book, so far! One of your other book that I ordered through you was Twisted Genes Altered Truths, by Steve Drucker. Definitely an eye opener!

From the food we eat, the water we drink to the air we breathe, everything these days seems capable of killing us. Recently we have seen an unprecedented number of deaths due to medications for diseases that may not even exist, obscure cancers caused by our modern devices, and brutal police tactics. All a coincidence? Think again. In Population Control, acclaimed journalist Jim MARRS lays out a stunning case for his most audacious conspiracy yet: the scheme concocted by a handful of global elites to reduce the world's population to 500 million by whatever means necessary and make a profit from it. MARRS, the bestselling author of Rule by Secrecy and The Trillion Dollar Conspiracy, pulls no punches in exposing this evil and chillingly effective plan. He explains how a small group of tremendously wealthy and powerful people control virtually every important industry: guns, oil, pharmaceuticals, food, and of course the media; and how it uses this vast network of conglomerates to take actions that lead to the deaths of men and women all over the world. In the explosive Population Control, MARRS lays bare the damning truths corporate owners don't want you to discover: how they've spied on private citizens, intentionally spread disease, and destroyed the planet chasing profits, all to improve the lives of a privileged few while eliminating everyone else. Finally, he offers a citizen's blueprint for fighting back.

Wide-ranging. ... Will undoubtedly put the fear of God into [readers]. (Kirkus) Phenomenal. ... MARRS is one of the last remaining true investigative journalists in America today. (Natural News) From the Back Cover Bad Food Bad Water Bad Drugs Bad Air What if these are all part of a global plot? From the food we eat and the water we drink to the air we breathe, everything these days seems capable of killing us. Recently we have seen an unprecedented number of deaths due to medications for diseases that may not even exist, obscure cancers caused by our modern devices, and brutal police tactics. All a coincidence? Think again. In Population Control, acclaimed journalist Jim MARRS lays out a stunning case for his most audacious conspiracy yet: the scheme concocted by a handful of global elites to reduce the world's population to 500 million by whatever means necessary and make a profit from it. MARRS, the bestselling author of Rule by Secrecy and The Trillion-Dollar Conspiracy, pulls no punches in exposing this evil and chillingly effective plan. He explains how a small group of tremendously wealthy and powerful people controls virtually every important industry: guns, oil, pharmaceuticals, food, and of course the media; and how it uses this vast network of conglomerates to take actions that lead to the deaths of men and women all over the world. MARRS answers tough questions the corporate-controlled media wouldn't even dream of asking: Could the CDC be secretly behind the recent Ebola outbreak that gripped the world? Who is responsible for the explosion in prescriptions for potentially deadly medications, and who profits? Why are local American police officers being sent to Israel for training in counterterrorism methods? Why might water be the deadliest weapon of the twenty-first century? In the explosive Population Control, MARRS lays bare the damning truths corporate owners don't

want you to discover: how they've spied on private citizens, intentionally spread disease, and destroyed the planet chasing profits, all to improve the lives of a privileged few while eliminating everyone else. Finally, he offers a citizen's blueprint for fighting back.

About the Author Jim Marrs is an award-winning journalist and New York Times bestselling author. After graduating from the University of North Texas with a degree in journalism, he worked for and owned several Texas newspapers before becoming an independent writer. He is the author of several books, including *Crossfire: The Plot That Killed Kennedy*, which is the basis for the Oliver Stone film *JFK*. His current New York Times bestselling books include *The Trillion-Dollar Conspiracy* and *The Rise of the Fourth Reich*. He is a frequent guest on several nationwide radio talk-show programs and television programs.
