Cathleen Stasz, Louay Constant, Charles A. Goldman, Eric R. Eide, Francisco Martorell : Post-Secondary Education in Qatar: Employer Demand, Student Choice, and Options for Policy before purchasing it in order to gauge whether or not it would be worth my time, and all praised Post-Secondary Education in Qatar: Employer Demand, Student Choice, and Options for Policy:

The government of Qatar has made significant investments in post-secondary education to ensure that Qataris are able to contribute to the country's social and economic goals. The authors describe Rand's analysis of occupational demand and related post-secondary educational opportunities, and offer recommendations for improving the country's current provision of post-secondary education.

From the Inside Flap
Describes a study conducted to assess how well Qatar's post-secondary education system is producing Qataris capable of furthering the nation's goals, as well as to determine priorities for developing post-secondary opportunities.
About the Author
Charles A. Goldman is an economist at RAND, specializing in the economics of higher education. He has recently published "Ph.D. Factory" (with William F. Massey) and "Paying for University Research Facilities and Administration" (with T. Williams).
