It more like a pdf copy of a power point presentation. A trivial and trite writing style that irritates rather than enlightens. It is just a rehash of every boring corporate training session you have had to endure. Don't waste your time.2 of 3 people found the following review helpful. Get this if you are clueless about basic human interactionBy J. EasmonNetworking is all about building relationships. If you can't muster up a basic relationship with the people you work with, then go ahead and get this book. Otherwise buy something else.0 of 1 people found the following review helpful. Very good book with some excellent insightsBy JeffThis book was well written and concise about this topic. I found it to be like most dummies books with a well thought out plan to help the reader get to the goal they are attempting to learn with the purchase of the books topic.

Are you putting your best foot forward in meetings? Are you connecting with the right people at functions?
