**From Greenwood : Real-World Decision Making: An Encyclopedia of Behavioral Economics: An Encyclopedia of Behavioral Economics** before purchasing it in order to gage whether or not it would be worth my time, and all praised Real-World Decision Making: An Encyclopedia of Behavioral Economics: An Encyclopedia of Behavioral Economics:

The first and only encyclopedia to focus on the economic and financial behaviors of consumers, investors, and organizations, including an exploration of how people make good and bad economic decisions. • Contains an informative introductory essay that familiarizes students with the various aspects of behavioral economics • Provides a list of additional readings for those interested in learning more about the topic • Includes cross-references in each entry to help readers make connections between related topics • Defines key terms that are likely to be unfamiliar to those without advance knowledge of the subject • Helps readers identify and study particular entry categories through accompanying Topic Finders

"This encyclopedia is an excellent, authoritative guide to an exciting new approach to economic behavior and modeling. Summing Up: Highly recommended. Upper-level undergraduates through researchers/faculty; professionals/practitioners." - Choice  
About the Author  
Morris Altman, PhD, is professor of behavioral and institutional economics at Victoria University of Wellington, New Zealand, and professor of economics at the University of Saskatchewan, Canada.
