Cynthia Jeffrey : Research on Professional Responsibility and Ethics in Accounting: 19 before purchasing it in order to gage whether or not it would be worth my time, and all praised Research on Professional Responsibility and Ethics in Accounting: 19:

Research on Professional Responsibility and Ethics in Accounting publishes high-quality research and cases which

focus on the professional responsibilities of accountants and how they deal with the ethical issues they face. Covering timely issues such as social responsibility and ethical judgement, the series brings together a range of articles exploring the professional responsibilities of accountants, codes of conduct which affect them, and securities regulations. Compliance with professional guidelines is judgement-based and the characteristics of the individual, the culture in which they operate, and situations all affect how these guidelines are interpreted and applied, as well as when they might be violated.

Seven articles consider professional responsibility and ethics in accounting. Topics discussed include stand-alone corporate social responsibility reports and stock market returns, how moral intensity impacts the moral judgment and whistleblowing intentions of professional accountants, the importance of ethics and ethical leadership in the accounting profession, whistleblowing considerations for external auditors under Dodd-Frank: a blueprint for future research, benefit corporations as a socially responsible business model: the role of accounting, another look at the effectiveness of instruction in accounting ethics education, and religious social identity and whistle-blowing. -- Distributed in North America by Turpin Distribution.
