From Routledge : Rethinking Social Capital and Entrepreneurship in Greater China: Is Guanxi Still Important? (Routledge Culture, Society, Business in East Asia Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Rethinking Social Capital and Entrepreneurship in Greater

China: Is Guanxi Still Important? (Routledge Culture, Society, Business in East Asia Series):

Family networks and wider personal social relationships - guanxi - have long been held to be a significant factor making for the success of many Chinese family businesses, and guanxi is often seen as a special characteristic which shapes the nature of all business in China. This book re-examines this proposition critically, bringing together the very latest research and comparing the situation in different parts of "Greater China" - mainland China, Taiwan and Hong Kong. It considers entrepreneurship, venture capital, intergenerational succession, disputes, family businesses in different sectors of the economy, and particular family businesses. Among the book's many interesting conclusions is the observation that guanxi capitalism has evolved in different ways in the different parts of Greater China, with the particular institutional setting having a major impact.

About the Author Jenn-Hwan Wang is a Professor in the Graduate Institute of Development Studies at National Chengchi University, Taiwan. Ray-May Hsung is a Professor of Sociology at National Chengchi University, Taiwan.
