Gary E. Martin, Arnold B. Danzig, William F. Wright, Richard A. Flanary : School Leader Internship: Developing, Monitoring, and Evaluating Your Leadership Experience before purchasing it in order to gage whether or not it would be worth my time, and all praised School Leader Internship: Developing, Monitoring, and Evaluating Your Leadership Experience:

1 of 1 people found the following review helpful. Quality of the material is horribleBy CustomerI had to buy this book for a graduate class. I am not writing a review of the material contained within the book, but a review of the quality of the product. The first time I opened the book several pages fell out. As I tried to read it, every few pages would fall out. I was intending to keep this book and use it as a reference as I moved along in my career. As it is, it will probably not make it through this course. I am extremely disappointed.1 of 1 people found the following review helpful. This book was definitely helpful. The tips to taking ...By Bb0602This book was definitely helpful. The tips to taking the

test and what the test makers are looking for was exactly what I needed. Those little things your program doesn't refer to, this book offers. I passed so it served it's purposely exactly!0 of 0 people found the following review helpful. Five StarsBy DanaGreat book for cheap!

School leadership internships are the bridge between classroom teachers and first-time leadership positions. Research shows that quality internships are equally as important as the graduate programs themselves in establishing leadership practices that improve teaching, learning, and school conditions. This book was written as a stand-alone graduate textbook and serves as a guide and support for creating and managing quality school leader internship programs. It provides step-by-step guidance for interns, their supervisors, and their faculty on how to initiate an internship and evaluate interns' work. In this updated third edition, the authors have aligned the internship to the revised ISLLC standards, making this book critical for the over 500 leadership preparation programs nationwide and the thousands of school districts that support leadership candidates.
