Sometimes life is complicated but sometimes it's very simple. Do what you're really passionate about and put all your effort into doing it.The book also gives me some stories which happened to Rick himself that resonated with me. To name one of them, he hired a boat in a stormy day which put a lot of people following him in danger. But he did let things go and moved on.Thank Rick for your advice!3 of 3 people

found the following review helpful. Generic advice that's poorly written and with a lot of Branson Ego boosting
By K. Burham
It's rare that I stop reading a book half way through. And with this one I really wanted to but kept going only because a friend had read it and wanted to discuss. It's filled with very generic advice (such as 'Be bold, aim high' and 'Challenge yourself') that you will find in any book of this genre. The writing itself is not very good and I found the book quite boring. There is a lot of time spent on Branson explaining how awesome Branson is.
