A friend recommended this book to me because I just started a new business and I could use all the help and advice I can get. This didn't disappoint. It's a wonderful guidance book with concrete tips that you can actually use. It's broken down very nicely so that it is easy to read and follow. I imagine I'll be referencing it often.1 of 1 people found the following review helpful. Inspiring and enjoyable!By DPGreat book! Love this author's writing style. He really brings to life the ups and downs of building a successful business. I especially enjoyed hearing about what it was like to prepare for and survive the Shark Tank experience. I also found the "Playbook for Success" section at the end of each chapter to be especially valuable. Inspiring and enjoyable!0 of 0 people found the following review helpful.
