Kaiwen Leong : Singapore's Lost Son: How I Made It from Drop-Out to Millionaire Princeton PhD

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Singapore's Lost Son: How I Made It from Drop-Out to Millionaire Princeton PhD:

0 of 0 people found the following review helpful. This book will give you hope and a purpose By Customer I thank the author for writing this book and spreading some hope and sense of direction to me. Hope; in the face of extreme

adversity, he never gave up. He ploughed on and succeeded. Purpose; to be the best I can be 3 of 3 people found the following review helpful. Brief, provoking and absolutely essential. By Camus I initially expected Singapore's Lost Son to be just another run-of-the-mill ivy league success story. I must say that Kaiwen Leong's story completely blew my mind and gave me lots of food for thought and reflection. His story brings to light what is truly essential and important in life, besides demonstrating the infallible strength of the human spirit. A quick read that leaves a significant impression on the mind. I would highly recommend it to any young adult and student seeking a steady source of inspiration and hope in the attempt to define a path for themselves that is truly their own.

This is the true story of a boy with a simple dream: to become a man. But he fell and became a dropout of school, friends, life, himself. But with the helping hand of a teacher, he turned his life around, found friends and love, and fulfilled his dream. This is the story of how that boy went from dropout to millionaire Princeton PhD. Expelled from four junior colleges (he was labelled "subnormal" and not academically inclined), Kaiwen Leong sat for the A level examinations as a private candidate while experimenting with Internet websites to try his hand at entrepreneurship. He studied hard and did well enough to be admitted to Boston University in the US where he graduated with two bachelors and two masters degrees in economics and mathematics in four years. And then he went on to obtain postgraduate degrees at Princeton University. He is a member of America's most prestigious academic societies and has published research papers on economics, mathematics and physics. Today he lectures at Nanyang Technological University and is an economist at Spring Singapore. Find out how Dr Leong picked up his life.
